

VMware vCenter is managed by:

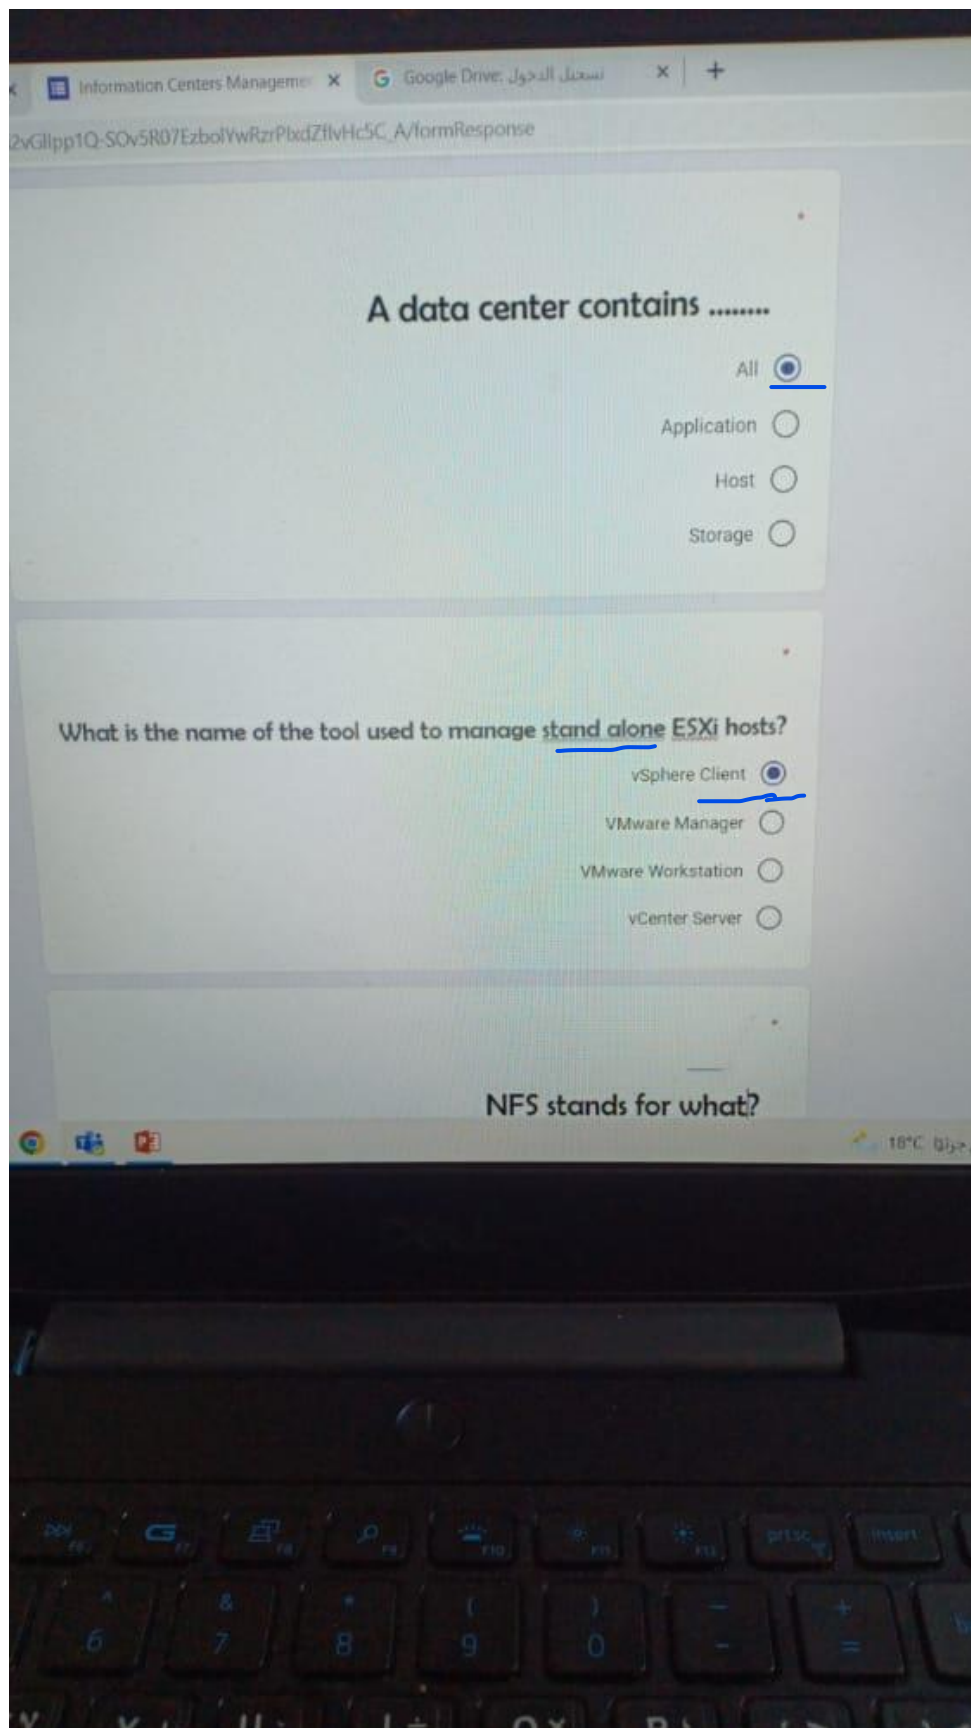

- VMware virtual Client ☒
- VMware vSphere Client ☐
- VMware vCenter Client ☐
- VMware ESXi Client ☐

Is a network that primarily connects the storage systems with the host and also connects the storage systems with each other

- SAN ☒
- LAN ☐
- TCP/IP ☐
- NAS ☐

A data center contains

d2vGllpp1Q-S0vSR07EzboIywRzrPbdZflvHc5C_A/formResponse

What is the default port number used to access the vSphere web client?

443 ☐

9343 ☐

9443 ☒

9334 ☐

ISCSI stands for

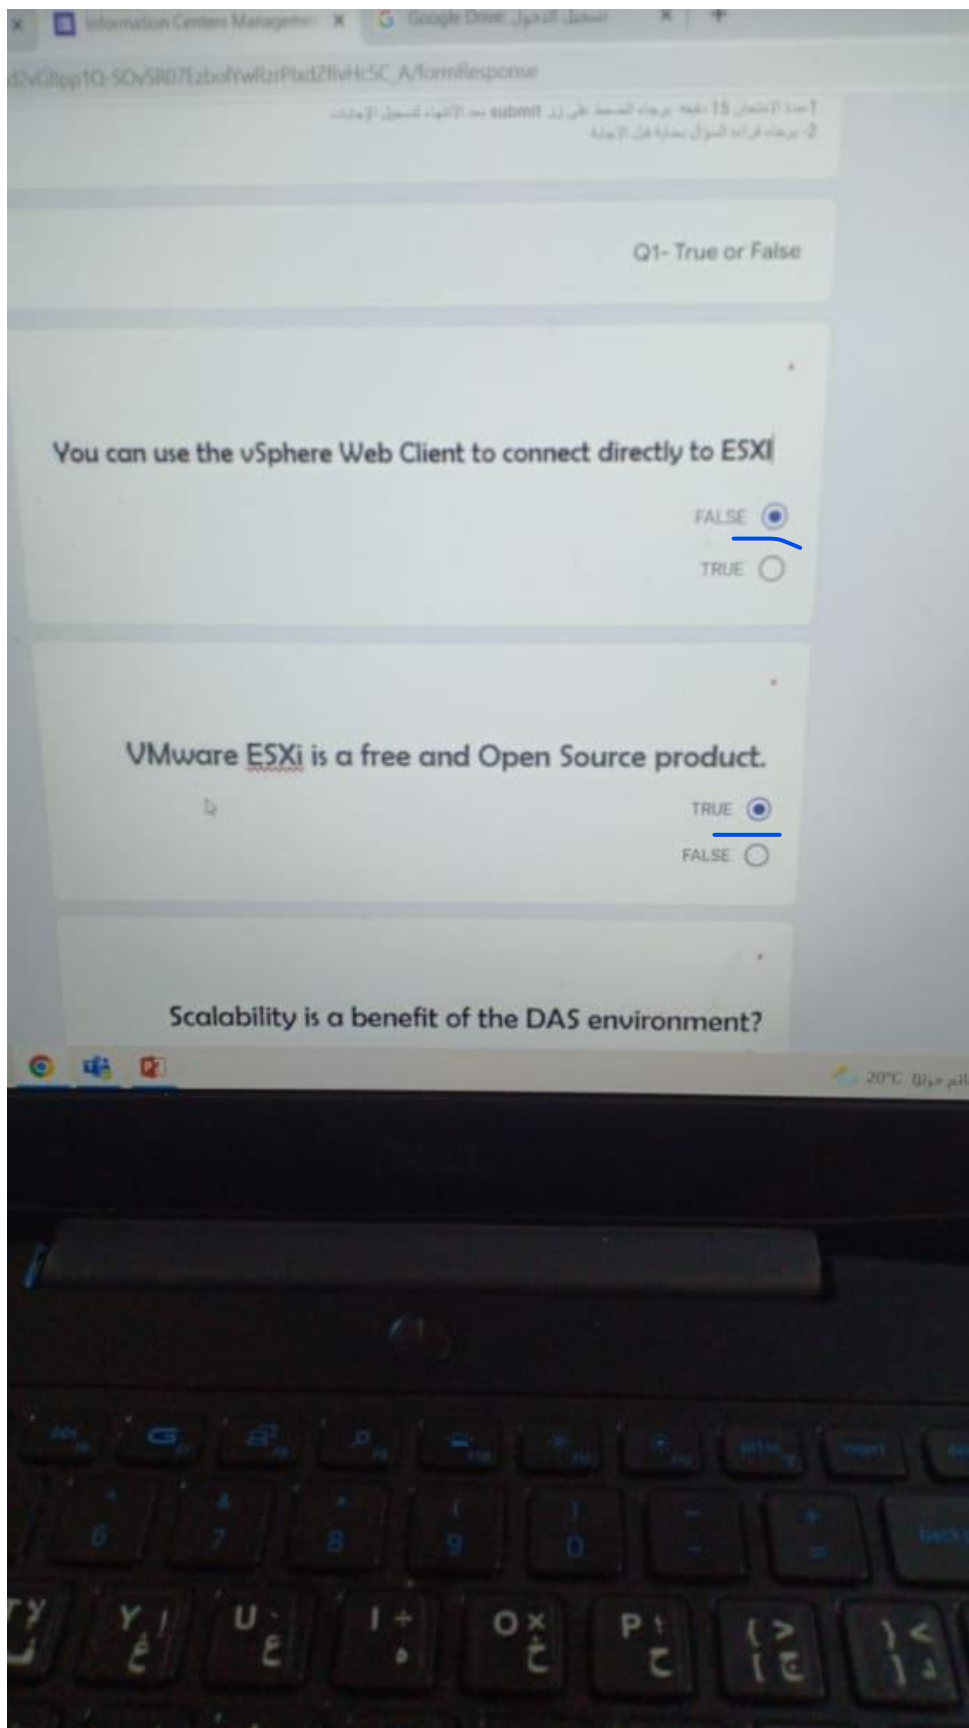

Internet Small Computer Systems Interface ☒

information Small Computer Systems interface ☐

none ☐

internet Small Computer Systems information ☐

VMware vCenter is managed by...

Q1- True or False

you can use the vSphere Web Client to connect directly to ESXI

FALSE ☐

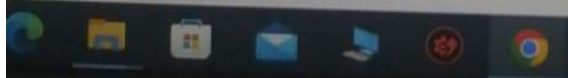

TRUE ☒

Scalability is a benefit of the DAS environment?

FALSE ☒

TRUE ☐

Information-centric architecture Storage is managed centrally and independent of servers

FALSE ☐

SXi is a free and Open Source product.

FALSE ☐

TRUE ☒

Choose the correct answer for ALL the following questions

the vSphere Web Client to connect directly to ESXI

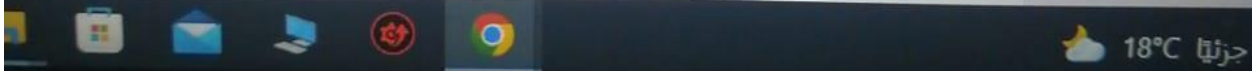

FALSE ☐

TRUE ☒

availability is a benefit of the DAS environment?

FALSE ☒

TRUE ☐

VMware vCenter Client ☐

VMware ESXI Client ☐

Is a network that primarily connects the storage systems

FALSE ☐

TRUE ☒

Internet Small Computer Systems Interface ☒

Internet Small Computer Systems Information ☐

What is the name of the tool used to manage stand alone ESXi hosts?

VMware Workstation ☐

VMware Manager ☐

vSphere Client ☒

vCenter Server ☐

NFS stands for what?

none ☐

Network File Small ☐

Network File System ☒

Network Format System ☐

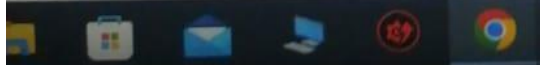

NFS stands for what?

- ☐ none
- ☐ Network File Small
- ☒ Network File System
- ☐ Network Format System

the default port number used to access the vSphere web

- ☒ 9443
- ☐ 9334
- ☐ 9343
- ☐ 443
